The image system that comes with the robotic arm at the factory can automatically run large programs when it is turned on.

In order to avoid resource occupation, please enter the command to end the APP remote control process before running other programs.

sh ~/Dofbot/kill_YahboomArm.sh

```
jetson@jetson-desktop:~$ sh ~/Dofbot/kill_YahboomArm.sh
Number of processes=2
Yahboom_Arm.py is running, and kill it:
5668 5704
jetson@jetson-desktop:~$
```
